

# Tripod projection screen

## Expand your viewing potential

This projection screen is ideal for classrooms, auditoriums or conference rooms. Its durable tripod platform makes it extremely portable and it can be set up in minutes and easily collapses when not in use. Its matte finish eliminates both glare and reflections on the screen. It is available in black housing.

## Highlights

- Available in black housing
- White matte screen
- Screen thickness: 0.42mm +/-0.03in
